

Mission : Campaign Quest Chain: The Terrorized Town!

Version : 19/10-2018

Venture takes place on one island but is split in 3 parts which has to be done in different quests.

All info is from testserver – as far as I know also the info in simulator.

Guide is intended as raw setup using unskilled generals, and it has not been possible to test on adventure, only on simulator.

Since adventure is probably only available 1 time a year, I have not tried very hard to find best setup – just tried to find one working.

You can use the given setup or improve it using the simulator.

Losses is maximum losses – but no guarantee.

Where loss will be lower or same using S instead of Xbow or Cannon only S solution is given.
